

OptioHire

AI-Powered Talent Acquisition Platform Connecting Skilled Candidates
to the Right Employers.

optiohire.com

The Problem

For Candidates

- You graduate with skills. You send CVs into inboxes that never respond. You apply to 50 jobs and hear back from none. Not because you are unqualified because you are invisible.

For HR and Employers

- You post a job. 300 applications arrive. You spend four days screening manually. You still are not sure you found the right person. The hiring process in Kenya is broken on both sides.

What OptioHire Is

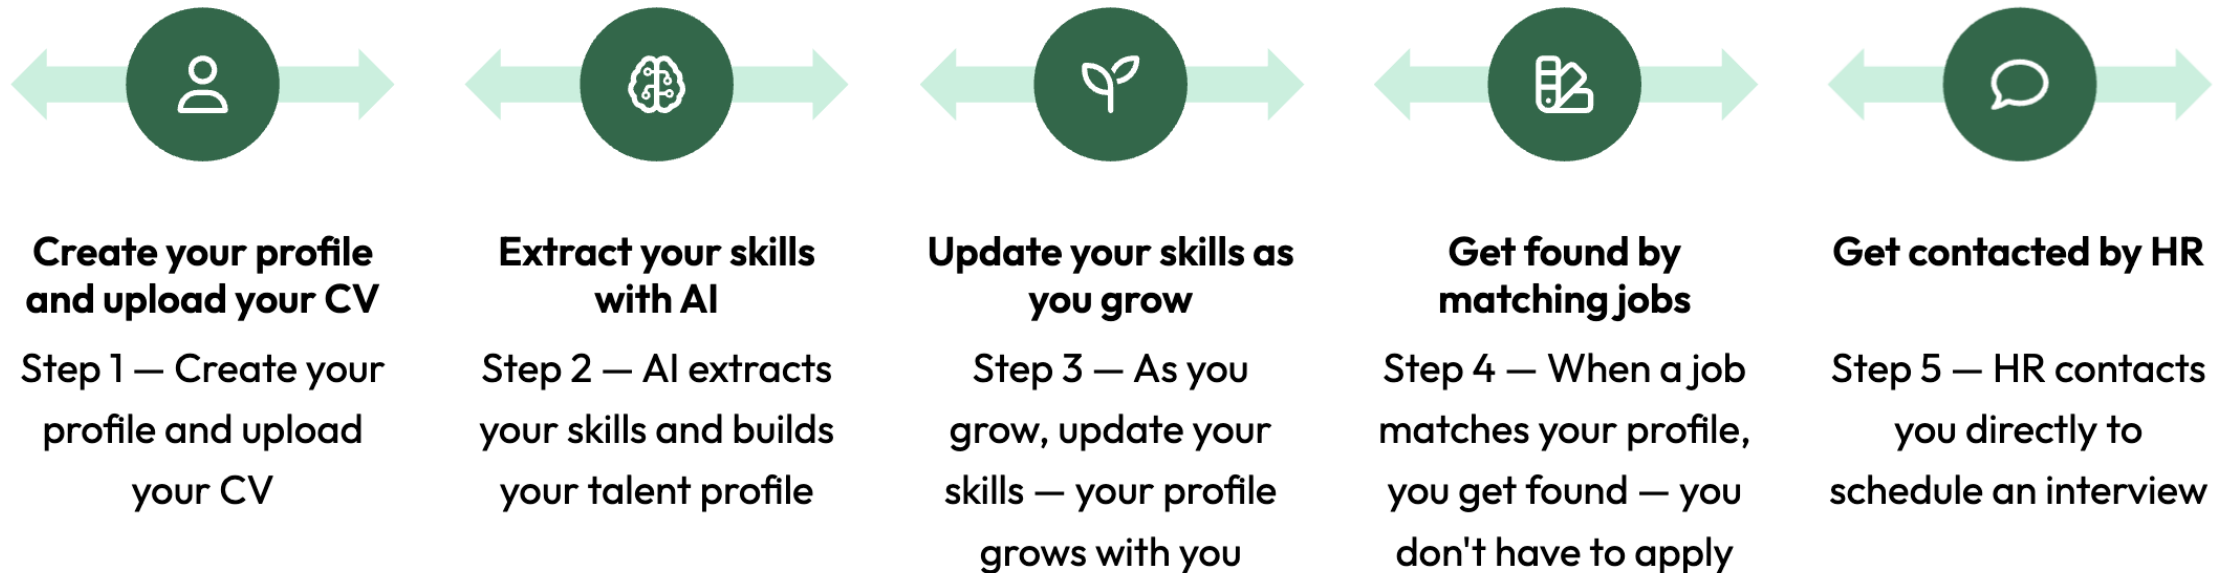

AI-powered matching

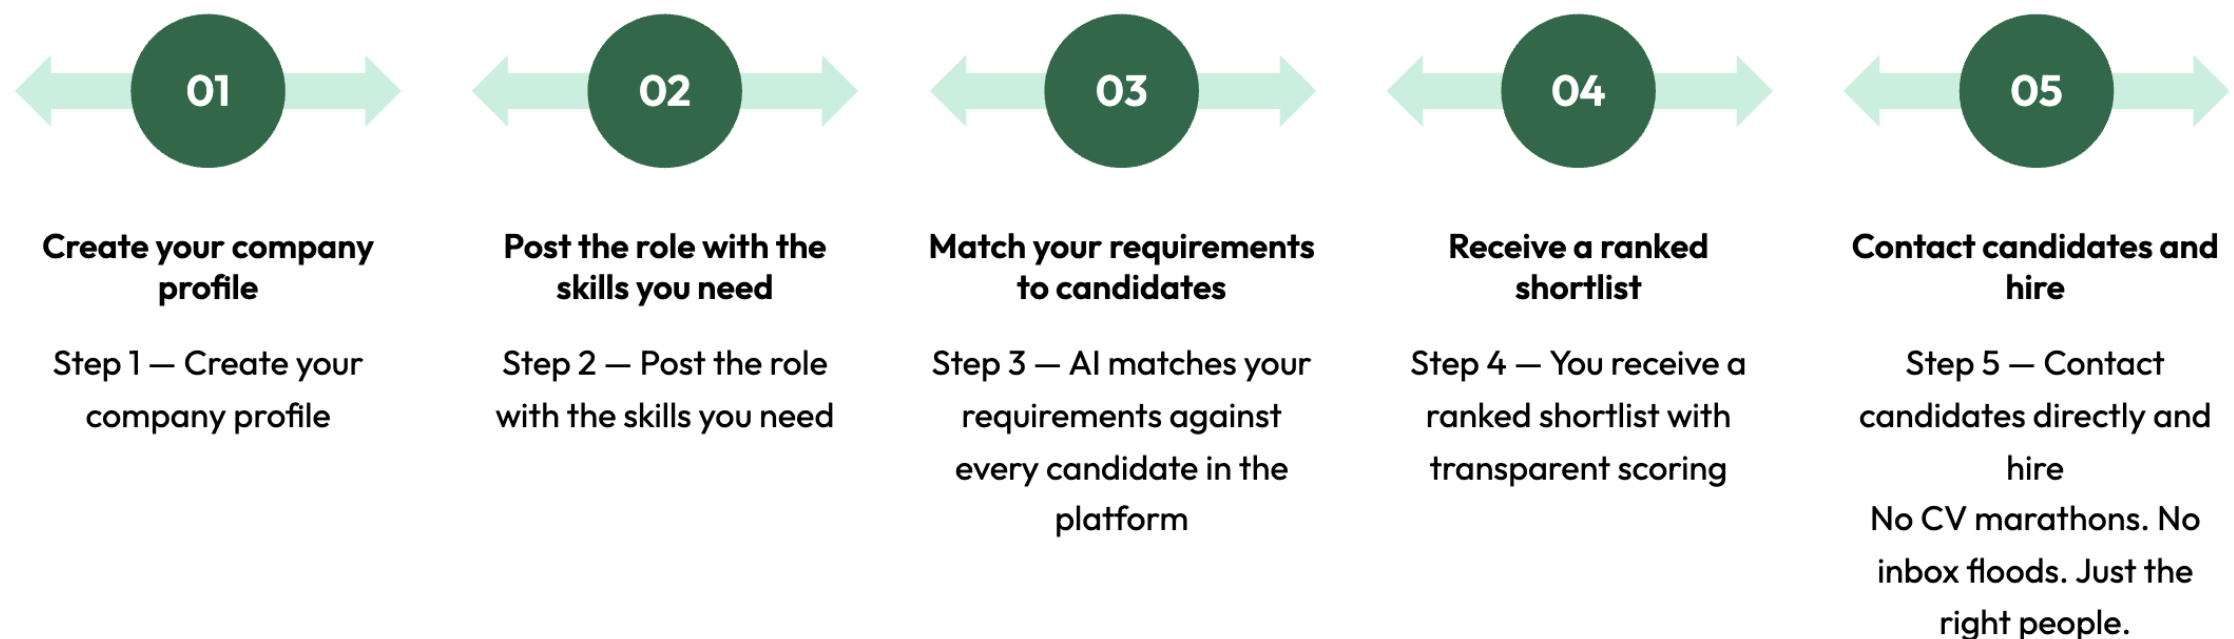

OptioHire is an AI-powered talent acquisition platform that matches skilled candidates directly to employers based on verified skills, not just a CV.

Candidates build a living skills profile. Employers post roles. The AI matches them. The right person surfaces to the right employer at the right time, automatically.

How It Works - Candidates

How It Works — Employers and HR

Built For

1

University Graduates

University and college graduates entering the job market

2

Students

Students building skills during their studies

3

HR Professionals

HR professionals and hiring managers across Kenya

4

Companies

Companies hiring across multiple departments and locations

5

NGOs and Institutions

NGOs and institutions requiring fair, documented hiring processes

Why OptioHire

01 **AI matching**

Skills-based, not keyword-based

02 **Ranking system**

Candidates ranked by skill strength and relevance

03 **Bias-free evaluation**

Every candidate assessed on the same criteria

04 **Compliance**

Kenya Data Protection Act 2019 compliant

05 **Local focus**

Built in Nairobi for the Kenyan market

03 **Candidate cost**

Free for candidates. Always.

For Institutions — University and College Partners

Graduate Visibility

Your graduates get found by employers actively hiring

Employment Tracking
